# ESEE® KNIVES

Escuela de Supervivencia (school of survival) Escape and Evasion

## ESEE Knives / Randall's Adventure & Training Explorers, Adventurers, Rescuers, Knife Guys

Beginning in 1997, Jeff Randall and Mike Perrin started down the path of changing the way the survival and wilderness industry did business. Having become frustrated with the endless amount of exaggeration and hype often associated with "survival" gear and training, they started Randall's Adventure & Training to bring realistic tools and knowledge to the consumer. Working under contract with the Peruvian Air Force's Escuela De Supervivencia En La Selva (school of jungle survival), also known as ESSEL, they introduced many clients to the art of jungle survival in the vast Peruvian Amazon jungle. After several years of operating in South America, they brought their training stateside and added a sister company that produces high quality field grade knives and gear – ESEE Knives.

Jeff Randall

Mike Perrin

From ESEE's beginnings on the floor of the Amazon jungle, they have searched out what works (and what doesn't) in the real world. Along the way, they have worked with some of the best wilderness experts, knife makers and manufacturers in the industry. The owners of ESEE are also craftsmen, regularly prototyping new ideas in their own shops before sending them off to a manufacturer for production.

ESEE knives are now carried by numerous adventurers, rescue technicians, hunters, woodsmen, law enforcement, military and special operations personnel worldwide. With the brand being made in the USA and backed by a no-question-asked lifetime warranty, ESEE has become the knife that others are judged by.

Randall's Adventure

# Randall's Adventure & Training®

Wilderness Survival • Technical Rescue • Land Navigation  
Wilderness SAR • Jungle Survival

Certified Instructors • Licensed & Insured

Randall's Adventure and Training® is a recognized leader in Latin American jungle and domestic wilderness training. As a professional wilderness training team and hard-use gear manufacturer, they understand the unique needs of personnel operating in jungle and woodland environments. If you need training in jungle or wilderness survival, land navigation, wilderness rope SRT, high-angle rescue, firearms disciplines, wilderness medicine, team building or SAR, then Randall's Adventure & Training® is your answer.

Visit [www.randallsadventure.com](http://www.randallsadventure.com) for the current class schedule.

Randall's Adventure Training®

## HISTORY:

For the past 20 years, Randall's Adventure Training® has provided the necessary gear and training to survive some of the most remote locales on earth, whether it's interdicting drug traffickers in Colombia, building aid stations in Africa or simply surviving the local back-country. Having spent the past two decades training in the jungles of South America, as well as the back-country of North America, the company has grown into one of the most respected names in the survival training and knife manufacturing industries.

## COURSES:

- Jungle Survival
- Wilderness Survival
- Land Navigation
  - Tracking
- Search & Rescue
- Technical Rescue
- Single Rope Technique
  - Canyoneering
  - Bushcraft

## FACILITY:

Our "Farm" domestic training facility is located on 170 wooded acres and features an off-grid classroom, training tower and rifle/pistol range. The facility is privately owned and not open to the public. Our rope rescue courses utilize the farm and off-site locations featuring high-angle environments.

## STANDARDS:

### Integrity

We loathe dishonesty and choose to operate our business the way we'd like others to operate theirs: with honesty, transparency and integrity. You'll always know what to expect and what you're getting with Randall's Adventure & Training

### Dedication

We teach to a standard without compromise. Randall's Adventure & Training is not a "rubber stamp" school, instead we focus our curriculum on quality, not quantity. To receive a certificate for a technical class, the student must demonstrate proficiency with the skill.

### Passion

Our instructors have a true passion for their craft, instilled in them by years of "boots on the ground" experience and honing their skillsets in real world conditions. At Randall's Adventure & Training, continuing education is a way of life.

### Mutual Respect

We welcome all students with a desire to learn. Any student willing to give us their best effort will always receive ours in return. We encourage our students to always seek out new training venues, instructors and experiences, and to always further their training education.

# New Product

**WARNING:**  
This product can expose you to chemicals including Sulfur, Nickel, Chromium, Vanadium and Lead, which are known to the State of California to cause cancer, and Sulfur, Nickel, Chromium, Lead and Iodine, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## ESEE CR2.5 (Orange)

Overall Length: 6.25"  
Maximum Thickness: .125"  
Steel: 1095 Carbon, 55 - 57 Rc.  
Weight: 2.5 Ounces (Knife Only)  
Finish: Black Oxide Stone Washed  
Sheath: Leather Pouch  
Handle: G10  
Designer: Cody Rowen  
Made In The U.S.A.

Item #: ESEE-CR2.5-OR

## ESEE GIBSON PINCH

Designed by Journeyman knifemaker, James Gibson, the Pinch is an ultra-concealable mini-knife that's easy to hold in the hand and ergonomically shaped for use. The Pinch is held in the sheath by a rare earth magnet, making it very secure to carry, yet simple to deploy. When James was asked where he came up with the name, he said "It'll do in a pinch."

Overall Length: 3.0"  
Blade Length: 1.3"  
Maximum Thickness: .13"  
Steel: 1095 Carbon, 55 - 57 Rc.  
Weight: 1 Ounce (Knife Only)  
Finish: Black Oxide Stone Washed  
Sheath: Molded w/ Magnetic Retention  
Designer: James Gibson  
Made In The U.S.A.

Item #: ESEE-PINCH

## WRAT WRENCH

The Wrat Wrench is built to fit popular SAE sized climbing anchor bolts and Quicklinks often found when practicing single rope techniques. With a weight of 1.3 ounces (stainless steel model) and .9 ounces (Titanium model), the Wrat Wrench can be clipped onto a climbing or rescue harness and go unnoticed until it's needed to check an anchor bolt or to tighten or loosen a Quicklink on your ascending gear. Open end quicklink sizes: 3/8", 7/16", 1/2" Hex Sizes: 1/4", 7/16", 1/2", 9/16", 3/4"

Item #:

**RT001-Ti**

(Titanium, Tumbled Finish, Made in China)

**RT002-Ti**

(Titanium, Blue Anodized Finish, Made in China)

**RT001-SS**

(Stainless Steel, Tumbled Finish, Made in the U.S.A.)

## ESEE PR4

Overall Length: 8.90"  
Cutting Edge Length: 4.0"  
Overall Blade Length: 4.19"  
Maximum Thickness: .125"  
Steel: 1095 Carbon, 55 - 57 Rc.  
Weight: 6.3 Ounces (Knife Only)  
Sheath: Leather Pouch  
Finish: Black Oxide Stone Washed  
Handle: Sculptured Micarta  
Designer: Patrick Rollins  
Made In The U.S.A.

Item #: ESEE-PR4-BO

Traditional Kephart styling designed by Randall's Adventure & Training's lead instructor, Patrick Rollins.

**WARNING:**

This product can expose you to chemicals including Sulfur, Nickel, Chromium, Vanadium and Lead, which are known to the State of California to cause cancer, and Sulfur, Nickel, Chromium, Lead and Iodine, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

# Camp-Lore®

Cody Rowen

Reuben Bolieu

James Gibson

The ESEE Camp-Lore line was developed to answer the demand for traditional, basic, bushcraft knives. The designers of these knives come from unique backgrounds and experiences, with each considered to be one of the best in their field. All of these ESEE knives are simple, traditional, fixed-blade designs that have been field-proven for years and made in the U.S.A.

**CR2.5**  
Item #: ESEE-CR2.5-BO

**RB3**  
Item #: ESEE-RB3-BO

**JG3**  
Item #: ESEE-JG3-BO

### CR2.5

Overall Length: 6.25"  
Blade Max. Thickness: .125"  
Steel: 1095 Carbon, 55-57 Rc.  
Weight (Knife Only): 2.5 ounces  
Finish: Black Oxide Stone Washed  
Made in the U.S.A.

### RB3

Overall Length: 8.13"  
Blade Max. Thickness: .125"  
Steel: 1095 Carbon, 55-57 Rc.  
Weight (Knife Only): 6 ounces  
Finish: Black Oxide Stone Washed  
Made in the U.S.A.

### JG3

Overall Length: 7.63"  
Blade Max. Thickness: .125"  
Steel: 1095 Carbon, 55-57 Rc.  
Weight (Knife Only): 4.5 ounces

Made in the U.S.A.

# Izula®

## Survival Kit / Concealed Carry / Rescue Knives

**WARNING:**  
 This product can expose you to chemicals including Sulfur, Nickel, Chromium, Vanadium and Lead, which are known to the State of California to cause cancer, and Sulfur, Nickel, Chromium, Lead and Iodine, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

The locals in the Amazon call the meanest, most aggressive ant in the jungle "Isula" (spelled with an "s"). We know it as the Bullet Ant. The Bullet Ant is known to be independent, tough, light on its feet, and a real aggressive survivor. The IZULA knife is built the same way... mean and nasty! Designed to be the ideal survival kit, small skinner, emergency rescue, back-up or concealed carry knife.

### IZULA

Overall Length: 6.25"  
 Blade Length: 2.63"  
 Maximum Thickness: .156"

 This product can expose you to chemicals including Sulfur, Nickel, Chromium, Vanadium and Lead, which are known to the State of California to cause cancer, and Sulfur, Nickel, Chromium, Lead and Iodine, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

The legendary Candiru is one of the most feared fish in the Amazon jungles. Although extremely small, it's known for its parasitic abilities by swimming up the gills and orifices of other fish and feeding on their blood. The Candiru is also known as the toothpick fish, vampire fish, and the "don't pee in the water" fish.

All Candiru knives and sheaths are made in the U.S.A. Candiru kits contain some imported items.

# ESEE-5 / Laser Strike

## Hard-Use Survival Knives

The ESEE-5 is built to work. It was designed by military SERE instructors as a downed pilot's survival knife. If the time came to beat through a helicopter in a hostile area, they didn't want the knife to fail. It's the toughest ESEE knife produced.

### ESEE-5

- Overall Length: 11.0"
- Blade Length: 5.25"
- Maximum Thickness: .25"
- Steel: 1095 Carbon, 55-57 Rc.
- Blade Width: 1.56"
- Weight (Knife Only): 16 Ounces
- Finish: Textured Powder Coat
- Handles: Canvas Micarta
- Sheath: Kydex w/ Clip Plate
- Pommel Glass Breaker
- Handle Bow Drill Divot
- Made In The U.S.A.

**Item #:**

- ESEE-5P-E** (Black Blade, Plain Edge)
- ESEE-5S-E** (Black Blade, Partially Serrated)
- ESEE-5P-OD-E** (OD Blade, Plain Edge)
- ESEE-5S-OD-E** (OD Blade, Partially Serrated)
- ESEE-5P-VG-E** (Venom Green Blade, Plain Edge, Orange G10 Handles)

Optional MOLLE Back / Sheath / Pouch Combos (Made in the U.S.A.) (Knife not included)

**Item #:**

- ESEE-5-MBSP-B** (Black)
- ESEE-5-MBSP-OD** (OD)

### LASER STRIKE

#### Survival Craft / Fire Making

The Laser Strike was named after a late 1990s counterdrug operation in South America involving numerous international agencies, including U.S. Special Operations Forces, known as "Operation Laser Strike."

- Overall Length: 10.0"
- Cutting Edge Length: 4.5"
- Overall Blade Length: 4.75"

# Junglas® Knives

After spending some time in Colombia with the Colombian Jungla Special Operations Forces, the owners of ESEE decided to design and name a knife after the program. The Junglas knife (pronounced "Hoonglas") now sees service worldwide in tropical locales, and with anti-narcotics forces both domestically and overseas.

## JUNGLAS

Overall Length: 16.5"  
Cutting Edge Length: 9.75"  
Overall Blade Length: 10.38"  
Blade Width: 2.0"

# ESEE-CM6 / Tertiary®

**WARNING:**  
This product can expose you to chemicals including Sulfur, Nickel, Chromium, Vanadium and Lead, which are known to the State of California to cause cancer, and Sulfur, Nickel, Chromium, Lead and Iodine, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## CM6: DESIGNED BY TERRILL HOFFMAN

The ESEE-CM6 is the joining of tactical and practical making this new knife at home in the American forests or the battlefields around the world. The 5 7/8 inch drop point blade of the CM6 is sized to complete the hardest task without adding excessive weight to your gear load. The sharpened swedge enhances penetration, while the full sized Canvas Micarta handle is shaped to provide a secure and stable grip.

## ESEE-CM6

Overall Length: 11.13"  
Overall Blade Length: 5.88"  
Blade Width: 1.38"  
Weight (Knife Only): 10 ounces  
Maximum Thickness: .188"  
Steel: 1095 Carbon, 55-57 Rc.  
Handles: Canvas Micarta  
Sheath: Kydex w/Adjustable Tensioner  
Finish: Textured Powder Coat  
Made In The U.S.A.

Item #: ESEE-CM-6 (Plain Edge, Black Blade)

## TERTIARY®

The Tertiary was developed by SWAT officer Lee Smith as a Law Enforcement / Military defense tool. Born from the legendary Izula line, the "Tertiary" name (meaning third in order or level) comes from an edged weapon's natural place in the panoply of personal weapons (primary firearm, backup firearm and then close-quarters weapons).

Item #:  
ESEE-TERTIARY (With G10 Handle)  
ESEE-TERTIARY-NH (Without G10 Handle)

## TERTIARY

Overall Length: 5.0"  
Overall Width: 4.25"  
Cutting Edge Length: 2.5"  
Maximum Thickness: .156"  
Weight: 5.7 Ounces  
Finish: Textured Powder Coat  
Sharpened Top Edge  
Made In The U.S.A.

For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

# Sheath Accessories

## ESEE 5/6 MOLLE BACK & POUCH

The ESEE 5/6 MOLLE back fits the ESEE-5, ESEE-6 and Laser Strike sheaths. The top of the MOLLE back has both an adjustable handle retention strap and a flap that can be slipped over the pommel of the knife and secured tight with the paracord and cord lock, thus making the ESEE-5 or ESEE-6 sheath jump safe. Both the top portion and lower portion of the MOLLE back have built-in belt loops and MOLLE straps.

The accessory pouch will bolt to the front of the ESEE-5 or ESEE-6 hard sheath. This pouch will hold either the included storage tin or a regular Altoids tin, as well as any other gear you can fit into the pouch.

### MOLLE BACK

- Item #:**  
**ESEE-52-MB** (Black)  
**ESEE-52-MB-OD** (OD)  
**ESEE-52-MB-K** (Khaki)

### ACCESSORY POUCH

- Item #:**  
**ESEE-52-POUCH** (Black)  
**ESEE-52-POUCH-OD** (OD)  
**ESEE-52-POUCH-K** (Khaki)  
 Add -L to above item #  
 for long pouch.

All sheath accessories are made in the U.S.A.

Metal tin included with accessory pouch is an imported item.

## ESEE 5/6 CLIP PLATE

Designed to fit the ESEE-5, ESEE-6 CM6 and Laser Strike sheaths. Attaches in both left-hand and right-hand configurations.

**Item #:** ESEE-CLIP-PLATE

## MOLLE BACK, SHEATH & POUCH

Assembled combos for ESEE-5 and ESEE-6 knives (knife not included).

- Item #:** ESEE-5-MBSP-B (ESEE-5, Black)  
**Item #:** ESEE-5-MBSP-OD (ESEE-5, OD)  
**Item #:** ESEE-6-MBSP-B (ESEE-6, Black)  
**Item #:** ESEE-6-MBSP-OD (ESEE-6, OD)  
**Item #:** ESEE-6-MBSP-K (ESEE-6, Khaki)

## IZULA CLIP PLATE

Ambidextrous clip plate for Izula sheaths. Steel clip can be reversed for inverted carry.

# Survival / E&E

**WARNING:**  
This product can expose you to chemicals including Sulfur, Nickel, Chromium, Vanadium and Lead, which are known to the State of California to cause cancer, and Sulfur, Nickel, Chromium, Lead and Iodine, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

The **ESEE Fire Kit** is a "last-ditch" fire starter and mini survival kit container that includes a 20mm button compass in the cap and survival tips printed on the body. The watertight capsule has plenty of storage space for tinder, fishhooks, line and other essential survival tools (user supplied). The Fire Kit can be clipped to a belt or vest, carried in your pack or put in the glove box of your vehicle. The compact size and light weight make this kit a very unique survival tool for hikers, adventurers, campers, hunters or anyone who ventures into the wilds. Aluminum capsule made in the U.S.A. Ferro rod imported.

**ESEE FIRE KIT**  
Item #: FIRE-KIT

The **ESEE Fire Steel** is built from 1095 Carbon Steel and heat treated to be used as a fire making tool for use with true flint and charred material. The edges of the Fire Steel also work as a Ferro Rod striker, and the center divot is designed to be used as a bow drill socket. The Fire Steel comes packaged in a hinged-lid tin that can be used to make char cloth or other charred materials. Made in the U.S.A. Tin container imported.

**ESEE FIRE STEEL**  
Item #: ESEE-FIRE-STEEL

The **RAT Match** is designed for those who like to travel light. It's a bare minimum fire starter that is extremely lightweight and compact. The Rat Match features a Ferro rod joined with a magnesium rod. Made in the U.S.A. (Ferrocerium rod imported).

**RAT MATCH**  
Item #: RAT-MATCH

**RANDALL'S ADVENTURE & TRAINING®**  
**SURVIVAL / SIGNAL TARP**

The Survival Tarp was developed by Randall's Adventure & Training to be carried in a survival kit, in your pocket, or in a vehicle. Built from 30 denier blaze orange nylon, the tarp is designed for multiple uses: signal panel, quick shelter to keep the user and / or gear dry, improvised camp chair / mini-hammock, or lashed together to create a bag to hold debris as an insulating mattress for sleeping on the ground. About 58" x 58" in size with grommets around perimeter and an overall weight of 6 ounces. Note: This tarp is not UV or silicone treated. It is designed for emergency / signal uses and will fade if left in sunlight for days at a time. While it is water repellent, we suggest the user treat it with silicone spray for ultimate water protection.

Made in USA from imported fabric.

Item #: **SURVIVAL-TARP**

**ESEE RECOVERY BAG**

The ESEE Recovery Bags are big enough and tough enough to put all of your gear in for easy movement from one vehicle to the other, loading on an aircraft for an operation, or just to store your excess gear in one large bag. This is ESEE's go-to bag for all their training gear when flying to South America. The bag also features an outside pocket for document storage. Made in the U.S.A.

Item: #

**RECOVERY-BAG-OD (OD)**  
**RECOVERY-BAG-TAN (TAN)**  
**RECOVERY-BAG-BLACK (BLACK)**

# Miscellaneous Gear

**WARNING:**  
 This product can expose you to chemicals including Sulfur, Nickel, Chromium, Vanadium and Lead, which are known to the State of California to cause cancer, and Sulfur, Nickel, Chromium, Lead and Iodine, which are known to the State of California to cause birth defects or other reproductive harm. ## ESEE BLADE MAINTENANCE KIT

The **ESEE Blade Maintenance Kit** contains the basic needs to field sharpen and service ESEE Knives. The two T15 Torx wrenches are used to remove and replace the handles or install missing hardware which is also included and stored in the metal tin. The medium and fine diamond hone will put a serviceable edge back on most knives in the field. A tube of B-Fat rust preventative / fire starter helps deter rust on carbon steel knives. Includes storage pouch with plenty of room left to add your own components.

Item #: MAINT-KIT (Tin Imported. All other components made in the U.S.A.)

**WARNING:**

This product can expose you to chemicals including Sulfur, Nickel, Chromium, Vanadium and Lead, which are known to the State of California to cause cancer, and Sulfur, Nickel, Chromium, Lead and Iodine, which are known to the State of California to cause birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

# Travel & Logo Gear

**IZULA GEAR® PASSPORT CASE**

These tri-fold passport cases have multiple pockets inside for a passport, credit cards, driver's license, USB drive and a pen holder. The case closes securely with a large strip of Velcro. A secure zippered pocket with hidden money flap is inside as well. Multiple grommet holes for the paracord neck strap allows the case to be carried vertically or horizontally. An external pocket allows for storage of the carry strap when not in use. A shielding material to prevent theft of information via RFID is built into the case protecting your personal information on your passport and credit cards. Comes with an Izula Gear Fisher Pen, survival cards and two 6-mil zip lock bags to waterproof the entire case under extreme conditions. Made in the USA. Measures 4-1/4" x 6-1/2" closed.
